Regulations

1. The total number of credits required for graduation is 128, including 28 university-required credits, 8 college-required credits, 54 department-required credits, and 38 professional elective credits.
2. Students in their first to third years may take 16–25 credits per semester, while fourth-year students may take 9–25 credits. Detailed regulations are governed by the University Academic Regulations.
3. In accordance with the University's implementation guidelines for Chinese proficiency, English proficiency, information technology competency, and physical fitness, students must pass all required assessments to be eligible for graduation.
4. Students must meet the assessment standards stipulated in the Department's "Implementation Guidelines for Professional Competency Assessment" before they are eligible to graduate. Certificates obtained by students who pass the assessment under the University's "Implementation Guidelines for Student Information Literacy Assessment" shall also be recognized by the Department as workplace-based information application certificates.
5. The curriculum consists of two modules: the Data Science Application Module and the Smart E-Commerce Development and Application Module. Detailed course requirements shall be handled in accordance with the course lists and study regulations of each module.
6. Practical Project (I) and Practical Project (II) are offered in coordination with the Department's course module planning and are listed as required courses for each course module of the Department.
7. Students may take courses offered by other departments that are not available in this department. Upon departmental approval, up to 12 credits (including interdisciplinary program credits) may be counted toward professional elective credits. Students may also take courses at other universities, limited to one course. Credits earned will be included in the calculation of external elective credits. Inter-institutional enrollment shall follow the University's "Implementation Guidelines for Inter-Institutional Course Selection."
8. Students participating in the Ministry of National Defense Reserve Officers' Training Corps (ROTC) who have completed required training and obtained certification may apply for exemption from internship courses, up to a maximum of 10 credits. Students applying for a full-semester internship exemption must complete registration and enroll in at least one course during that semester.
9. For the department's Enterprise Internship, Professional Internship, and Advanced Internship of Information Management, each credit shall correspond to a maximum of 80 internship hours completed by the student.
